

Production/Surface Equipment:  
Production Tanks  
Heater Treaters  
Vert. & Horiz. Separators  
High & Low Pressure Separators  
Vapor Recovery Towers  
LPG Gas Storage Tanks

Dragon is here.

**19 manufacturing  
plants throughout  
North America.**

- U.S. owned and operated for over 50 years
- ASME Stamp Code Vessels and API 12F Monogrammed Production Tanks
- State-of-the-art, in-door steel grit blasting, painting and coating booths
- Experienced personnel and committed Health, Safety and Environmental Staff

Add up Dragon's more than 50 years of building high quality oilfield equipment, a workforce currently 2,500 strong and growing; plus its 19 manufacturing sites; 25 rental and service centers—all family-owned and operated from the Beaumont, Texas corporate office—and you have a formula that succeeds. This is what you get with Dragon. This is why so many companies in the energy industry choose to do business with Dragon.

The company's expansive inventory and product offering includes a comprehensive line of exploration and production equipment including, tanks, trailers, pumps, and rigs and all the parts that go with them. Dragon equipment delivers exceptional durability under the harshest conditions and in a variety of applications— including well servicing, bulk storage, liquid and solids hauling and many pumping solutions.
