

# Cooper TR750 Drilling Rig

## SPECIFICATIONS:

|                                                   |                                           |
|---------------------------------------------------|-------------------------------------------|
| Service Depth                                     | 25,000 ft (2 7/8 EUE tubing)              |
| Workover Depth                                    | 16,000 ft (3 1/2 DP)                      |
| Drilling Depth                                    | 10,500 ft (4 1/2 DP)                      |
| Rated horsepower, engine (Two)                    | 425 hp / 2,100 rpm x Two                  |
| Trailer                                           | Four axle                                 |
| Diameter, wireline                                | 1 1/8"                                    |
| Road Traveling dimensions (excluding tow vehicle) | 70'-5" long x 11'-2" wide x 15'-2" high   |
| Trailer dimensions (excluding mast)               | 62'-11" long x 11'-2" wide x 10'-11" high |

## DRAWWORKS SYSTEM:

### MAIN DRUM

|                            |                                      |
|----------------------------|--------------------------------------|
| Brake rim diameter x width | 42" dia x 12" wide                   |
| Barrel diameter x width    | 18" dia x 41" wide (excluding lebus) |
| Model, clutch              | WPT PO-324                           |
| Maximum fastline pull      | 47,000 lbf                           |
| Brake rim cooling          | Water circulating                    |

### ASSIST BRAKE (other options available)

|               |                                                      |
|---------------|------------------------------------------------------|
| Brake model   | WPT 324 water cooled brake                           |
| Torque rating | 334,800 lb-in @ 100 psi (standard friction material) |
