# DRAGON PUMPS

Dragon builds a working man's pump that is designed for easy operation and durability. All units are assembled in the USA and fully tested prior to shipping. Components of the Dragon 250 and 118 pumps are interchangeable with most major brands. We offer pumps in standard sizes that range from 1.5x1 to 10x8 and also provide an optional 'Dragon Seal Saver' that will protect the mechanical seal should the unit run dry. Dragon Centrifugal Pumps can also be vacuum assisted for easy prime.

## DRAGON PUMP SCHOOL

Learn the fundamentals of pump repair and rebuild from the Dragon Pump School. As a service to our customers we offer complementary pump training on-site or in your area. From a standard Dragon Centrifugal Pump to a Dragon Water Transfer Pump with a John Deere engine, we're here to provide you with the essential tools you need to keep your operation running. Our hands-on approach allows each trainee a chance to get comfortable troubleshooting and working codes on the power unit. At Dragon we **Make it happen!**

*Email [dragon.pumps@modernusa.com](mailto:dragon.pumps@modernusa.com) or call 800.231.8198 to schedule training.*
